One supplier. Every category. Even the hard-to-find.

WHO WE ARE

PremierSource Supply LLC is a US-registered business-to-business supply company serving commercial, institutional and healthcare buyers nationwide. HOW WE WORK

01 — You send an RFQ
Any format — spreadsheet, part list, photo of a shelf label.

02 — We source and quote
Priced across our supplier network, with lead times stated.

03 — You issue a PO
One purchase order covering every line, whatever the category.

04 — We ship direct
Delivered to your site from the source. No warehouse leg.

WHY BUYERS USE US

— **One vendor instead of six.** Office, janitorial, medical, furniture, technology and safety on a single quote, PO and invoice — one AP record instead of six.

— **We chase the awkward items.** Discontinued parts, single-unit orders and low-volume specials that larger distributors decline to quote.

— **No minimum order.** A $40 line item is quoted with the same attention as a $40,000 fit-out.

— **A named contact, not a call centre.** Every RFQ is acknowledged the same business day by the person who will handle it.

— **Authorized-channel sourcing.** Goods come from authorized US distributors and manufacturers, with the manufacturer's warranty intact.
